116TH CONGRESS
2D SESSION

H. RES. _____

Supporting the designation of July 2020 as Uterine Fibroids Awareness
Month.

IN THE HOUSE OF REPRESENTATIVES

Mr. DAVID SCOTT of Georgia submitted the following resolution; which was
referred to the Committee on _____

RESOLUTION

Supporting the designation of July 2020 as Uterine Fibroids
Awareness Month.

Whereas fibroids may cause significant morbidity through
their presence in the uterus and pelvic cavity, causing
significant pelvic pain, abnormal uterine bleeding, repro-
ductive dysfunction, miscarriages, and even infertility;

Whereas the pain, discomfort, stress, and other physical and
emotional symptoms of living with fibroids may signifi-
cantly interfere with a woman's quality of life, compro-
mising her ability to function normally, work, or care for
her family, and may lead to more severe health and
wellness issues;

Whereas uterine fibroids are the most prevalent medical condition affecting women, with an estimated 30 percent of women developing a uterine fibroid by age 35, and 80 percent of women developing a uterine fibroid by age 50;

Whereas the exact number of affected women is unknown, as early detection and diagnosis are difficult because only 1 out of 4 women who have a uterine fibroid exhibit symptoms severe enough to require treatment;

Whereas the overall incidence of uterine fibroids is estimated to disproportionately impact Black and Hispanic women, who also experience more severe symptoms, resulting in an incidence rate that is 3 times greater in women with Black ancestry and 2 times greater in Hispanic women compared to Caucasian women;

Whereas a hysterectomy, or removal of the uterus, is among the most common surgical treatments for uterine fibroids, and more than 200,000 hysterectomies are performed each year to treat uterine fibroids, at an estimated annual cost of more than \$2,000,000,000;

Whereas uterine fibroids were estimated to cost the United States \$5,900,000,000 to \$34,400,000,000 annually with an estimated annual lost work cost of \$1,600,000,000 to \$17,200,000,000 through absenteeism and short-term disability in women ages 25 to 54; and

Whereas public awareness and education campaigns on uterine fibroids prevention, screening, and symptoms are held during the month of July each year: Now, therefore, be it

1 *Resolved*, That the House of Representatives—

2 (1) supports the goals and ideals of Uterine

3 Fibroids Awareness Month;

1 (2) recognizes the disparity in incidence rates
2 for Black and Hispanic uterine fibroid patients;

3 (3) recognizes the need for greater research,
4 treatment, and care options regarding uterine
5 leiomyoma; and

6 (4) encourages the President to issue a procla-
7 mation calling upon the people of the United States
8 to observe the month with appropriate awareness
9 and educational activities.
